

URBAN FOREST LINE

LATSCHBACHER

- 1 Long hammer shaft - tags at a safe height
- 2 **FAST** application
- 3 Unbeatable **LOW PRICE**
- 4 Tag "GROWS with the tree"

ARBO TAG - THE ONLY IDENTIFICATION SYSTEM FOR STREET AND PARK TREES THAT GROWS WITH THE TREES

More and more municipal and private tree owners systematically collect their tree stock data. This serves to simplify the administration of tree stocks, identification of trees during tree control and upkeep measures as well as the creation of tree inventory plans.

The patented Arbo tag system is the only tree numbering system that expands as the trunk grows.

		TAG	LABELLING				
	<p>EQUIPMENT SET</p> <ul style="list-style-type: none"> - Fixing hammer - Magazine feeding 40 individual tags - Carry bag for 200 tags - Closable carry bag for 200 fixing nails <p>Magazine and carry case only available as a complete set!</p>			<p>TECHNICAL DESCRIPTION</p> <p>The practical portable magazine with a capacity of 240 number tags in combination with the magnetic nail seat in the specially developed Arbo hammer makes it possible to quickly apply the tag to the trunk.</p> <p>Depending upon planting density, between 120 and 200 Arbo tags can be attached per hour. Fixing heights of 2.5 to 2.8 m are possible using the special extended hammer shaft.</p> <p>The tags are attached so high on the trunk that unauthorized removal is nearly impossible.</p>			
<p>Fig. TYPE 08</p> 	<p>ARBO TAG</p> <ul style="list-style-type: none"> - WHITE with 5 digit black numbers - BLACK with 5 digit white numbers - Up to a 6 letter text without surcharge - Grows with the trunk 	<p>AVAILABLE COLOURS</p> <table border="1"> <tr> <td><input type="checkbox"/></td> <td><input checked="" type="checkbox"/></td> </tr> <tr> <td><input checked="" type="checkbox"/></td> <td><input type="checkbox"/></td> </tr> </table>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<p>TECHNICAL DESCRIPTION</p> <p>Arbo tags are manufactured as sequential numbers in large quantities which allows a comparatively low-price. Modern cadastral tree registers always have the possibility of recording two numbers per tree: one that is actually fastened to the tree, an Arbo tag, and an additional number that corresponds to the natural tree control sequence. The star shaped cut-out guarantees that the tag grows with the tree.</p>

<p>Fig. TYPE 08</p> 	<p>ARBO TAG BARCODE BLACK</p> <ul style="list-style-type: none"> - BLACK with white bar code 128 or 2/5 interleaved - BLACK with individual white inscription - Best readable barcode - Grows with the trunk 	<p>AVAILABLE COLOURS</p> <table border="1"> <tr> <td><input checked="" type="checkbox"/></td> <td><input type="checkbox"/></td> </tr> <tr> <td><input type="checkbox"/></td> <td><input type="checkbox"/></td> </tr> </table>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<p>TECHNICAL DESCRIPTION</p> <p>Arbo tags in barcode Black can be supplied with 128 or 2/5 interleaved barcode. This barcode is durable and perfectly readable for many years. As an alternative to the barcode, these tags can be individually labelled. As with the white tag, the star shaped cut-out guarantees that the tag grows with the tree.</p>

- Fast application with one strike
- Outstanding durability
- Tag grows with the trunk
- Placement out of reach
- No danger of injury (fixing height 2.5 - 2.8 m)
